# I. An introduction to the Dutch DPA

## Our mission, vision and values

- Our mission: ensuring compliance with data protection legislation
- Our vision: addressing infringements and raising awareness
- Our values: independence, expertise, transparency and engagement

## Our organisation, tasks and powers

- Located in The Hague, 80 FTE
- Specific tasks and powers of the Dutch DPA include:
  - Supervision
  - Providing advice
  - Providing information, education and accountability
  - International assignments
- Supervisory and enforcement powers

## Selective to be effective

- Selective to be effective
  - Severe
  - Structural
  - Large amount of people
- Annual Agenda
  - GDPR
  - Profiling
  - Sensitive data
  - Security

Examples of supervisory activities: Nike running app and Wifi tracking

## Nike running app

- Consent
- Information
- Health data
- Retention periods

## Wifi tracking

- Inside shops
- Outside shops
- Information
- Retention period
- Conditional fine

## II. Looking towards 2018: the GDPR

## Institutional changes

- From a Directive to a Regulation
- Consistency
- The European Data Protection Board (EDPB)

## Institutional changes

- Mutual assistance and joint operations
- Lead authorities and the “One stop shop mechanism”
- Consequences for data controllers and national DPA's

## Substantive changes

- Accountability
- Data Protection Impact Assessment (DPIA) and Prior Consultation
- Data Protection Officer (DPO)
- Data Breach Notification
- Administrative fines

## Policy changes

- Complaint handling and initiating investigations
- Systematic supervision and principle of accountability

## Conclusion

- Important institutional and substantive changes
- Impact on data controllers, data subjects and DPA's
- “Tour de force”, but with distinct advantages
